Read this passage and answer the questions. No. 32 – 36

Camel can live and go without water for a long time in the hot desert. Some people think it stores water in its hump. This is not true, it stores food in its hump. The camel's body changes the food into fat and then it stores the fat in its hump. It cannot store the fat all over its body. Fat all over an animal's body keeps the animal warm especially in the cold period. The Arabian camel has one hump. The Bactrian camel of Central Asia has two humps. It also has long hair because the winters are cold in Central Asia. There is a lot of sand in the desert. Camel has long eyelashes. The sand can't go into the camel's eyes.
