

ข้อสอบภาษาอังกฤษ (ฉบับที่ 3 ความเข้าใจ) ระดับชั้น ประถมศึกษาปีที่ 5

Read the passage and answer the questions No. 1.-4.

ASEAN: A Group of Friendly Countries

ASEAN is a group of countries in Southeast Asia that work together to help each other. The countries in ASEAN are Thailand, Malaysia, Indonesia, Philippines, Singapore, Brunei, Vietnam, Laos, Myanmar, and Cambodia, listed in the order of their accession to ASEAN. These countries have many things in common, such as beautiful landscapes, rich cultures, and delicious food. Each country has its own unique traditions and festivals. For example, in Indonesia, people celebrate a festival called “Nyepi”, which is a day of silence. In Philippines, there is a festival called “Sinulog”, which includes dancing, colorful costumes, and honors the Santo Niño, or the Child Jesus.

The countries in ASEAN work together to make life better for their people. They help each other with trade, education, and health. By working together, they can solve problems and make their countries stronger.

1. How many countries are in ASEAN? (จ.14)

Read the passage and answer the questions No. 5.-8.

There are many questions that no one knows the answer to. Scientists use experiments to help them find the answers. The scientific method is made up of five steps.

1. Ask Questions. What questions do you have about what you are looking at?
2. Form a Hypothesis. Make an educated guess or prediction that can be tested through experimentation.
3. Test Your Hypothesis. Conduct an experiment to test your hypothesis and collect data.
4. Analyze Your Data and Draw a Conclusion. Review the data to see if it supports or refutes your hypothesis, and then communicate your results.
5. Communicate Your Results. Share your findings with others.

The scientific method helps to make sure that scientists find the correct answer to their questions. Scientists aren't the only ones who use the scientific method. Anyone can use it to answer a question or solve a problem.
